EXPERIENCE

High School

2018 - 2022

I have completed one High School computer science course (ICS20) and currently in the process of finishing my second computer science course which is the ICS3U with a midterm mark of 99%. I have learned many things from my studies in the field of computer science such as Stacks and Queues, 2D Arrays and I have gained a decent amount of experience from completing my class projects and assignments. I am also completing my first computer engineering course (TEJ3M) as of writing this resume with a midterm mark of 100%. I have gained much helpful knowledge from this course such as how computers work behind the scenes to perform day-to-day tasks, programming Arduinos and building circuits and monitoring their function. I have also achieved a midterm mark of 100% in my Grade 11 Functions class by completing all of my assignments thoroughly and handing them on time. This course has helped me learn many key knowledge required for my Grade 12 Adv. Functions class such as Trigonometric Functions.

EDUCATION

High School

2018 - 2022

Westdale Secondary School

SKILLS

- C++
- JAVA
- PYTHON
- COMPUTER ENGINEERING
